Teacher of Mathematics | NPQ in Leading Teaching | Harvard Graduate

Profile

Harvard graduate and Mathematics teacher with 12 years' experience across UK and international settings, teaching KS3–KS5 (Edexcel GCSE & A Level; AQA Core Maths) and securing consistently strong pupil progress. Middle leader with responsibility for curriculum sequencing, assessment design, whole-school numeracy and instructional coaching. Draws on diverse educational contexts to design coherent, intellectually rigorous curricula. Teaches with clarity and high standards of precision, building fluency, reasoning and depth through carefully structured practice. Experienced ECT and SCITT mentor, recognised for high-challenge, high-support coaching and strong partnerships with pupils and families.

Education

Harvard Graduate School of Education, Harvard University, USA
Master of Education (Ed.M.), 2016–2017

MICA, Ahmedabad, India
Postgraduate Programme in Art Direction, 2013–2014

University of Mumbai, VESIT, India
Bachelor of Engineering (Computer Engineering), 2007–2011

Professional Qualifications

- **National Professional Qualification in Leading Teaching (NPQLT)** – UCL (2024)
 - **ECT Mentor** – UCL (2023)
 - **SCITT Mentor** – Sutton SCITT; NASBTT (2024)
-

Teaching & Leadership Experience

Glenthorne High School, Sutton (2020–Present)

Teacher of Mathematics (2020–Present)

- **KS3:** Secure transition and conceptual fluency through mastery-led teaching, combining disciplined practice with carefully designed variation, intelligent scaffolding and extension.
- **KS4:** Prepare pupils for GCSE through rigorous instruction in technique, reasoning and problem-solving, extending the most able through deeper tasks and proof, and securing exam readiness through deliberate practice and responsive use of assessment.
- **KS5:** Teach Edexcel A Level Mathematics and AQA Core Maths with a focus on conceptual coherence, mathematical modelling and application, and high standards of precision and independence.

Key Stage 3 Mathematics Coordinator (2022–2023 Maternity Cover; 2025–Present)

- Lead KS3 curriculum sequencing to increase rigour and strengthen progression into GCSE, securing conceptual coherence and cumulative knowledge.
- Standardise assessment design and moderation, ensuring comparability across classes and alignment with GCSE expectations.
- Lead data analysis to inform setting decisions and targeted interventions, monitoring progress of priority cohorts (SEND, PP, More Able) and adjusting provision accordingly.
- Deliver CPD on mastery-informed teaching, formative assessment and literacy within Mathematics, strengthening consistency of classroom practice.
- Conduct learning walks, work scrutiny and developmental observations, providing precise, actionable feedback to support staff improvement.

Numeracy Coordinator (2022–2025)

- Led whole-school numeracy strategy, reviewing policy and aligning mathematical language (Tier 2 and Tier 3 vocabulary), representation and core routines across subjects.
- Used assessment analysis to identify priority cohorts (including SEND, PP and underachieving pupils), reshaping intervention groups and monitoring impact through regular data review and work scrutiny.
- Designed and delivered CPD for numeracy leads and support staff, including fortnightly TA development meetings to strengthen classroom implementation.
- Line managed numeracy-focused TAs, including timetabling, deployment planning and ongoing professional development to maximise pupil progress.
- Strengthened parental engagement in numeracy through structured communication around expectations, study routines and targeted support, improving home–school alignment.

Line Management & Instructional Coaching (2022–Present)

- Line manage ECTs, ECT+1 colleagues, TAs and experienced staff, providing structured instructional coaching aligned to the ECF/ITT frameworks.
- Deliver weekly coaching cycles (drop-ins, modelling and actionable feedback), using deliberate practice to improve classroom practice and professional habits.
- Known for a high-challenge, high-support approach, setting ambitious standards while coaching with empathy, developing reflective practitioners and strengthening teaching quality.
- Mentor SCITT trainee teachers through regular coaching, lesson observations, precise feedback and target-setting, supporting evidence against the Teachers' Standards and strong progress through the programme.

Earlier Experience

- **Teacher of Computer Science** (KS3), Glenthorne High School, Sutton | 2022–2025
- **Teacher of Mathematics** (KS3 and KS4), Ashcroft Technology Academy, London | 2020
- **Teacher of Mathematics** (Years 8–10), Fatima High School, Mumbai | 2018–2019
- **Teacher of Mathematics (STEM)** (Years 6–8), American International School of Utah, USA | 2017–2018
- **Teacher of Mathematics** (Years 7–9), Teach for India, Mumbai | 2014–2016

Selected Distinctions & Leadership

- **Outstanding Teacher Award**, Murray City, USA (2018)
- **Head of Communications**, Harvard South Asia Education Initiative (2016–2017)
- Curator, **TEDx City2.0 Global Initiative** (2012–2013)
